## Preface

If you are reading this, then you obviously have an interest in our Genealogy. The only way this book and database can be kept up to date is by updates submitted from family members like you.

Please send any updates to:

Rick Waller  
181 May St  
Bensenville IL 60106  
opie@ameritech.net

The software can support all types of data, including births, marriages, divorces, deaths, military, residence, occupation, education, pictures, etc. Think of the things that you would find interesting about your ancestors and send that information. Also, please send information about the place the event occurred. A family picture would be great to include.

Also, this is available in electronic form. I can absolutely email you the electronic file. It is a standard GEDCOM file that can be imported into many free family tree programs. I recommend the free version of RootsMagic.

The entire tree is available on an interactive web site, along with many pictures at:

[www.comparevehiclespecs.com/Waller-Lesher/](http://www.comparevehiclespecs.com/Waller-Lesher/)

This website is password protected, to protect privacy.
